# SERENITY WOMEN'S CLINIC

Remain upright  
for 4 hours  
after treatment

Exercise the injected  
muscles periodically 4  
hours after treatment to  
increase uptake

Refrain from drinking  
alcohol in the first  
24 hours

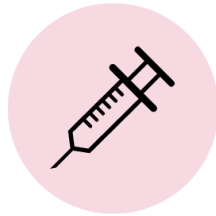

Avoid heavy exercise  
in the first 24 hours

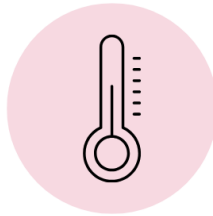

Refrain from touching  
the injected areas

Avoid applying  
make-up in the first 6  
hours after treatment

Do not undergo any  
chemical skin peels/  
facial treatments for  
2 weeks post treatment

Avoid extremes of  
temperature for 24  
hours after treatment

## Important Information

Results will start appearing 5 days after injection, with optimal results seen at 2 weeks interval.

Treatments on average last for 3 to 4 months, after which the muscles slowly start regaining their action and lines may start to re-appear.

Follow up should be at 2 weeks post treatment.
